## Software Engineer

---

Cool, calm, and concise. I'm a Software Engineer and Web Developer who takes pride in going the extra mile and I focus special attention to the small details.

## SKILLS

JavaScript | ReactJS | HTML/CSS | MongoDB | Express | Mongoose | NodeJS | Git | Python | Django | Agile

## EXPERIENCE

**General Assembly** | Washington, DC | Sep 2019 - Jan 2020

**Software Engineering Immersive.** 500-hour software-engineering immersive course that focused on real world application of full-stack coding skills. Completed projects include:

- ❖ **DeliCious** - Created a full stack application with React, Node, MongoDB and Express. Worked with a team of 2 other developers to build a responsive and functional website for finding and reviewing the best restaurants in Washington, DC.
- ❖ **CoTripper** - Created a full stack application with React, Python, and Django. Worked with a team of 25 other developers to build a website for mothers to connect with each other and plan trips with their kids.
- ❖ **Studio Ghibli Database** - Created a full-stack application with React, MongoDB, Express, Node, CSS, and Bootstrap that allows users to learn about the various films produced by animated film creators Studio Ghibli.
- ❖ **Galaxy Dawg** - Created with HTML, CSS, JavaScript, and PhaserJS; a single-player, top down, "shoot-em-up" style spaceship game for desktop and mobile devices. Gameplay is simple, intuitive, and fun.

## Previous Employment
